Mr. Gridley, from his long connection with the
road as its attoucy, and his intimate knowledge
of its affairs, was instead to with much attention. He represented the utter inability of the
Company at present to meet the demands of the
attrikers, and deprecated the suicidal course which
was adopted to compel payment. He sympathised deeply with the mon, but though their wisest
course was the asceptance of the proposition of
the Company. His remarks appeared to have
the effect of calming in a great degree the excitement which existed among the hands, and preparing them for measures of adjustment.

His was followed by J. H. Misacirae, Esq., who
complimented the hands upon their past forbearunce, and upon the peaceful disposition maficated by those engaged in the "atrike," but
thought that the rigors of the winter asseon,
and the other axisting circumstances, rendered
a resumption of work the most prudent course
to be adopted.

The Governor vry properly triugs to the notice of the Legislature the act passed at the last seasion "relating to foreclosure of mortgages and the sale of land under foreclosure." He denies that this act is a Stay-Law or a law to prevent the collection of debts, and says there was no question of constitutionality involved in its passage; it being as unconstitutionality involved in its passage; it being as unconstitutional to shorten the time for the foreclosure of mortgages as to lengthen it. He makes no recommendation, but says:

"Whatever may have been its morrits or domerits in other respects, if it has had the least tendency to purvent foreign expiral from being loased here on real estate neutrity, and on long time, at high resise of interest, it has, to that extent, been of great utility. Sir, I believe that. It cannot stand still. It is a party of progress, of power. It is going on; and I coincide with the statements uttered by this Senator yesterday, that the time will come whom it with take possession of the Government. It has but to pursue the even tenor of its way, standing by the Constitution, standing by the Union, encreaching dops the rights of no section of the country, but carrying out and maintaining the principles of the Constitution, as our fathers made it. I say it has bette go on in that course to attain power and possession of the Government, and make our Union perpetual. Further, the Senator said:

"Bus by sisp it will be driven coward in it must ear rece, until cavery is absilated or the Union dimerved. One of these two thing, is as localization as death."

It is by statements of this kind, as to the sims and objects of the Ropublican party, that the public mind of the South has been misled; and although I accord to the Senator from Georgia a fair exposent of the release of the so-called Democratic party of the present day, I trust he is not a fair exposent of the public seatiment of the South when it shall understand the position of the Reg ublican party. Does it propose to interfere with your institution of slavery? Where? Where, is any of its recognized public conventions, has it ever avowed such a principle? Never; but it has placed itself on the Constitution, and on the doctrines of Jefferson and Washington and Monroe and Madison and Jackson in regard to the slavery question; sye, sir, and of Pult too. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to let slavery alone where it is. It proposes to the fact in the countries that are free, and where alsavery has not existed. It that a new doctrine in this country? Why, sir, if the Senator from Georgia had occupied a seat on the four of the Senate in 1789, when the Government was organized, and when Washington was President, and when he law passed excluding alavery from the great Northwest, according to the crew he now a vowe, he must have become an advocate for disunton at once.

THE ELECTION UP ILLINOSA.

But, air, the Senator made an allusion to Illinois politics, upon which I would say a word. He declared that—

"In all the late elections, conservalive and senad Democracy the contract of the contract of the contract of Douglas as a victory of sound humorecy. It was a victory of Free hal Pamorary over Abolites Whiteneys and no more.

Now, sir, if the Senator from Georgia is laboring ander any such misapprehension as that the great Rapublisan party of Illinois, which has not been triumphed over, is an Aboliton White party, he is very much mistaken. If he is under the impression that the party suttaining my colleague is a Fraeschi Damorarcy, he is very much mistaken. If he is under the impression that the party suttaining my colleague is a Fraeschi Damorarcy, he is very much mistaken. Need I go back to the history of this country to show that parties were disrupted in 1854, the Democratic party as much as the White party? In 1854 was inneaugurated a measure never before in issue between parties in this country, never before a party tast. Immediately preceding that partied, in 1855, both the then great upon the alavery question. In their national conventions such party had passed resolutions pledging inself to the country to abide by the actionment of the silvery question as made in 1850, and demonstrate which is the section of the silvery question as made in 1850, and demonstrate which were two, under any presence whatever, thould again raise that question is Congress or out of Congress. But, air, what is a supposition was infreduced into this very bedy, in 1854, opening up again the whole accentred within two years afterwards? Not-estitutionalized the policy of 1800, as they within the country had acquired peace. When that new proposition was infreduced to repeat the Bissouri compromise measures of 1800, as they within the country had acquired peace. When that new proposition was infreduced to repeat the Bissouri compromise measures of 1800, as the work of the Bissouri compromise measures of 1800, and Meacake, the supposition was infreduced to repeat the Bissouri compromise measures of 1800, and Meacake, the supposition was necessaried to repeat the Bissouri compromise measures of 1800, and the necessary of the contract the pro Commercial Printing CARDS, BILL HEADS, CIRCULIES, &c., Opsters. Georgia will hardly motioned that the five and half million people who own no slaves in the South are benefited by slavery. In making this comparison, fairness would require me to my, and I wish to speak with switch andor, that subnough the number of slavehold orn is but three hundred and fifty thousand, yet

more persons are probably interested in size than that, because the sizewar are growned by the heads of families; and suppose a family to consist of five white persons, whi suppose is a fair estimate, there would be stones three hundred and fifty thousand, or so one and three quarter millions of the white pulation of the South that suight be directly indirectly interested in slaway. The only terest the others could have would be to get of it, each is cleaved the country is standard where it would be houserable for the white years to perform it. hite man to perform it,

DISTRICT AND ITS SERREDY.

The Senator, in speaking further of the
retiment of the South, remarked: contino." ("Well, air; I can only regret that such de-well, air; I can only regret that such a public southment of Georgia; but I hope and he the Seguitor is mistaken; and if such a public we timen dece after there, i appeared if Fauthraw a false basis. If has been krought about by a understanding of the public seatiment of North, and will be corrected the moment the in-North, and will be derressed the moment the Bublium parity is in power, and has an opportunity restricted by the illustration of the principles. Sit, it is improved that the principles of the principles of the principles of the principles of the below consendered squares that it produces the below consendered squares the Southern States. The election of a President the Republican party to dissolve that Union techniques of the proposed that country, it a constitutional for the proposed that country, it a constitutional for the proposed that country is a constitutional for the proposed that country is a constitutional for the proposed that country is a constitutional for the proposed that the proposed that the proposed the product of the product of the product of the proposed that the proposed the product of the principle of the second principle further than the principle obtaining the spoils of office and the power at the partyring of the state of the Covernment. I have stated to the byte no other ties (than these? Has she stated to the principle content of the principle of the transfer of the transfer of the principle of the pr right of the Illinois tarner who takes his dampher to Kansas, to earry that law with him; or the right of the daughter, when she gots there, and hody the have of Kansas, Ering the sage when familes shall have the right to act for themselves at 21, to set at defiance that hav, and assert her right to each for berself in opposition to her parents, and in opposition to the nave of Kansas, because, forscoth, if she had remained in Illinois she would have possessed that right. We denry the right of a man who owns a slave in Georgia, by virtue of some otherly, to take that law with him to Kansas, and bence, when her goes there has no right to hold the person as a slave.

We say that slavary depends upon local law. The Constitution of the United States so treats it. The language of that instrument is regard to persons eaching from service or labor in one State late another, clearly shows thus. The language is, that it is under the laws of the State, not under the laws or the Constitution of the United States. You cannot reclaim a reasway segret in any State of this Union, unlies the is held as a stave by virtue of a State law. This shows that the Constitution was not intended to establish elsavary.

But are, if the Constitution did establish. Ma. TRUMBULL said:
But, sir, I was about to call attention to the extraordinary speech of the Senator from Georgio [Mr. Iyen.oo.] delivered yesterday—a speech, winding up with a proposition to recommit this bill with its various amendments, for the purpose of having u-bill reported for the construction of two milroads; and for what reason? For two roats, because he looked to a separation of the botasing the spoint of cince and the power.

Like patronge of the Government 7 lashe attaed to it by no other the than these? Has she
to to toy in this Value, under which the people in
parts of the country have prospered to such
nucxampled degree since its Termation? Does
lake to pride in this country, in its udvancem roady, because he looked to a separation of the Confederacy—the very last reason on earth why I would vote for any hill that looked to any such object. Sir, I trust the day is far distant, when our legislation will be shaped with reference to a separation of the States of th's Union. Has it come to this, that the basis of our legislation is to be a division? If so, I apprehend it will not be long before we have it. But, sir, I am glad that the Senator from Georgia has spoken our so boddy. He has but avong what I have long made to be the sentiment of the party in power. I believe he is a fair exponent of it; and that dustinguished Cenator, occupying a prominent position in the country and in this body, possessing its "confidence of the Administration and the party in power—

Hz. I vanuos. Will the Senator allow me a moment?

Hz. I vanuos. Will the Senator allow me a moment? lake to pride to this country, is the advancement in teg greatments, in its post-or, and only remainer of it merely to enjoy the spoils of office? It will be time enough for the South to talk ab dissolving the Union and forming a southern of federacy, when the North, or the lispublican por of the North, makes any aggressions upon rights; and if it waits for that day it will we termally. No such aggression is mean—soon intended. The people of the North, unlike citizens of Georgia, are a Union-ivring peop they will stand by the Union, and stand by Constitution, and all they ask is that they be general measures of the Administration.

Mr. TRUMPULL. I did not suppose, or mean to be understood as infinating, that the claborately-prepared and carefully-striken speech of the Senitor had received the approbation of the Administration is advance; but be being associated with the Administration, possessing its configure and that of the party in power, I did regard his views as a fair exposition of the views of the se-called Democratic party of the present day. I have understood, before they were so openity and frankly arowed here, that they were the views of that party. I supposed that they fooked, as he Senator told us, to the control of this great Government in all fix departments, executive, legislative, legislative, legislative, legislative, legislative,

unless Congress carries it there. That instrument was made between the Sistes, to form a
more perfect union between the Sistes, and
when the Constitution was catabilished, it gave
to the Government which was formed by it the
right to govern the Territories; but it did not
called the Constitution of the United States
over the Territories; nor does it extend there
except by operation of law. When the KannaNebraska bill was passed, Congress inserted a
clause in it declaring that the Constitution of
the United States should extend over Kannanebrasks; thus indicating that, in the
opinion of Congress, the Constitution did not
resch that Territory at all, unless it was made
to do so by act of Congress.

The whole practice of the Government shows
this to be the meaning of the Constitution,
Why, sir, we appoint judges in all the Territories of the United States and for what length
of time? For four years. What does the Constitution of the United States and T I have not
it before me, but it specifically declares that the
judges shall be appointed during good behavior.
What right has Congress to limit the term of
office of a judge in Kansas or Washington Territory to four years, under the Constitution of
the United States, if that instrument extends scutive officers of the Federal towernment. We have seen the partial manner in which the laws of the United States are executed. We have noticed, within a few days, the fact that a cargo of negroes, kidnapped in Africa, has been brought to the Secator's own State, and landed there, to be subjected to sizarry, in deliance of an act of Courress pronouncing is pirary; and we have seen the official organ of the Administration, here in this city, proclaiming, in an additional article, that our institutions are a failure, so far as their ability to resist this violation of law and the rights of humanity, is concerned. These Africans have been smuggled away from their native land, and introduced into the heart of this country; and yet, so far as we know, no their native land, and introduced into the hear of this country; and yet, as far as we know, n man engaged in this piratical set has been brought to justice. In South Carolina the jurier fortuse to indica men engaged in the slave trade What does the Federal Government do? When were the Army and Navy of the United States that the men engaged in importing African itse Georgia could not be found and arrested Ferhaps the Army is in Kanasa, guarding, per chance, men indicted under a presended charg of treason. Possibly it is on its way to Bostot to form in the streets of that city to each a run away negro. Not many years age, when a sin to form in the streets of that city to catch a ru away negro. Not many years age, when a single negro escaped from bondage it order to r gain his liberty, and wer at large, the Armya Navy of the United States were called forth, the But Coogress has done it; and it has done it upon this principle: that the Territories belong to the United States, to be governed by the Congress of the United States irrespective of those particular requirements in the instr-ment which are applicable to States alone, and when we cannot do it, we will dissolve connection
with you; we will unite with you for the purpose
merely or fulling ard controlling you for our issend and aggrandizement; but when the time comes
that we do so cease, the Republic ceases to exist;
and when a practical measure 's pending before
this body, a motion is made to recommit is for the
very purpose of establishing two refs across its d although the laws in the one case in nefit of alavery are exerted with the But the Senator proceeded further to gor, we see no corresponding efforts to enforce be laws in favor of freedom. Yet the people of he North are attached to the Union. Tempo arily they submit to there eats, and they sat rarily they submit to the ze eats, and they su mit to the outrageous promalgation of opinion by judges in what is known as the Dred Sco case, upon a question not before them, becan in due time, they expect in a constitution mede, to reform and correct these abuses When the Republican party attains power, will not, as the Seuntou trom Georgia supposes make any encroschments on the rights of the South; but it will, I trust be equally ready inforce the laste both Norta and South, and it draws and New well be called into remission

sitions put forts by that patry. I am happy so agree with him that it is a monstrous doctrina, if the principle be once established that the Constitution carries always into a Territory, that you have a right by indirection to thwart and subvert that constitution of my country guarantees to an indiridual the right to take his alway into a Territory of the United States, and I will help, so long as I sit here under an eath, to support that Constitution, to support that the holy Scriptures and sawaring to support the Constitution of my country. I should turn around and say that, although the Constitution of my country. I should turn gives a right, I will, by untriendly legislation, or by non-legislation, thwart and deny it. It is a position whelly untenable; and when I believe the Constitution guarantees to an individual any right, I will stand by and protect him in the axercies and enjoyment of that right. I cannot find in consistent with my feelings as an houset man, to undertake by indirection to thwart the very instrument which I have sworn to support, Bot, sir, I deap any such constitutional right is the Senator from Georgia claims. Therefore, I say that slaves cannot be taken legitimately and constitutionally laio Kansas.

The Senator from Georgia further told us that nforce the laws both North and South, un-Army and Navy will be called into requisite uitse in all parts of the Republic whenever no ed for the inforcement of law, and it can be gally and constitutionally done.

Destructive fire at Corning, N. Y.

Coaxus, Jan. 13.—The large stone building owned by fi. E. Robinson & Co., and eccupied by several persons as a flouring mill, furniture warecome, confectionery, bakery, ets., was totally destroyed by fire, at about two o'clock this morning. Loss \$30,000; insurance \$14,000. It is supposed to have been the work of an incendiars. Baltimona, Jan. 13.—The U. S. Circuit Court, in session, has granted the injunction prayedfor by Chan. Geodyser and H. H. Day of New York, against Messra. Stillman, Hemrich & Co., for infringing on the India rubber patent rights of the former parties. Messra. Cooke & Gagle, Corey & Howa and J. H. Rodgers & Co., have also been erjoined for similar reasons. Connectiont Republican State Conven-Naw Haver, Jan. 18.—The Republican State Convention met in this city to day. A. Brandages, of New London, was elected President. Gov. Backingham and his associates on the State ticket were renominated. The first resolution declares that the Republican party of this State resifirms the principles which they have bereit-fore maintained upon matters of State and National policy. Bosrox, Jan. 13.—The large building, No. 54
Pederal street, was parily destroyed by fire this
forenoon. It was occupied mainly by the Chicopee Manufacturing Company for the storage of
cotion goods, and Charies Nichols, fasey goods
dealer. The property was much damaged by
lire and water, but was will y insured. Se. Lous, Jan. 18.—o.l. Sumser left for For Larvaneouth penterday, under orders from the War Department. It is thought that his trans-fer to that post has reference to the disturbance in the Southern part of Annea. Message of the Governor of Wisconsin Fire at St. Johns, N. B.

New York, Dec. 13.—A dispatch from Washington says the Territorial Committee yesterday greed to report the Arizona bill. COMMERCIAL Commercial and Money Matters,
TRUSSAY, Jan B. 180.
The day has been cloudy, with rain in the sijernoon, and business generally has been dull.
Good Eastern bills at bank are very scarce, and at par to half per cent premium. The warm weather will put a stop to whatever of activity the cold of last week had infused into the pork rade, and prospects generally indicate a period decided duliness for some weeks to come. of decided deliness for some weeks to come. Exchange is steady, at 1½ premium. Gold onlines at New York.
The Earopa, from Boston, December 10th, via Halling, strived at Liverpool on the evening of he 25th.
The Haumonia, from New York, December 18th, arrived at Cowes December 25th an route to Hamburg.
The Given of the Stripe of the Strip have nearly two dollars in ooin for one of circulation, while those of Philadelphia have nearly three in coin for one of circulation. The specie line in New York is rising, and must go long, and infuse life and healthy activity into all departments of trade.

Command.—The weather to-day was very unfavorable for Dressed Hogs, which rendered the market almost lifeless. Notwithstanding an improvement in product, Hogs sold to-day at even low figures than yesterday. Heavy Higs, with difficulty, were sold at 35,75@5.89, and those averaging over 500 lbs. 8. At the close, several lots, averaging 370 and 230 lbs., were offered at \$5,75@5.89, without hayers.

There is a better feeling in Hog products in consequence of improvement in New York. Holders of Mess Pork are firm at \$16, and it is deuthed if any considerable amount could be
